

Take a Turn in the Stern

Chorus:

Take a turn in the stern
Time to lead, time to learn
With a "C", with a "J"
You'll find the way

Take a turn in the stern
Muscles ache, muscles burn
To the left, to the right
Camp is in sight

Verse 1:

Gaze at blue lakes and green trees
Stay up late to see moonbeams
Watch the snowshoe hare browsing
Listen to the soft breeze

If your life's what you make it
Then don't bend it or break it
Give your love to your friends
So the trip never ends

Verse 2:

Pitch our tent in a clear patch
Light our fire using one match
Carve a pine branch for a soup spoon
And we'll both sing a tune

If your life's what you make it
Then don't bend it or break it
Give your love to your friends
So the trip never ends

Verse 3

Leave our swimsuits behind us
No one really will mind us
As we swim in the morning
After lunch and at night

If your life's what you make it
Then don't bend it or break it
Give your love to your friends
So the trip never ends

Verse 4

We eat red beans and wild rice
So we always poop quite nice
We catch northern on gray days
As we paddle the bays

If your life's what you make it
Then don't bend it or break it
Give your love to your friends
So the trip never ends
